These course selections are binding for grades 11 and 12 (KI 7 and 8). Once chosen, it is not possible to opt-out of these courses. Failing these subjects means that you have to take retake examinations, or repeat the school year, just like all other students. In short: we give you the possibility only to choose the subjects you need for your future studies, but if you choose them, then you have to meet all the requirements of the course. Be aware that some universities might require some of the courses to be completed.
